Appreciation Day To Turn Back Clock By Forty-Five Years

The clock will be turned back by over forty-five years in Grayling on Thursday evening, December 7th, when the Crawford County Chamber of Commerce sponsored Appreciation Day banquet will be held at the Chief Shoppenagons Motor Hotel.

April, 1916 marked the time when another celebration of achievement was held in Grayling. At that time, 147 members of the Bay City Chamber of Commerce aided the local Board of Trade in marking the opening of the city's newest Hotel, The Shoppenagons Inn, a recently completed new brick high school and bright industrial views of the coming years.

The opening of the hotel was the highlight of the day, as will be the formal opening of the Shoppenagon's renovated facilities under its new owner, Roy DeWitt, who will host the Dec. 7th Appreciation Day banquet.

The year 1916 was a bustling one, filled with news about the then emerging war in Europe and America's imminent entry into World War I.

In Grayling at that time, the Dupont de-Nemours plant was being heralded as one of the most successful plants of its kind in the United States and the world.

The new Grayling High School was lauded highly by Bay City visitors, especially its gymnasium and auditorium which, according to the April 28 Article in The Times, overshadowed even the facilities at the YMCA.

The visiting Bay City residents toured the fish hatchery, the military and game reservation, the Dupont plant, the modern high school before coming to the new Shoppenagons hotel, named after a famous old Indian guide on the AuSable.

Several well-known civic leaders of both Bay City and Grayling took part in the 1916 hotel opening.

T. W. Hanson acted as toastmaster. Hans Peterson, mayor of Grayling welcomed the Bay City visitors.

O. E. Sovereign, of Bay City, spoke on "cooperation" and pointed various ways in which Bay City and Grayling could cooperate for the good of all Northeastern Michigan.

Melvin A. Bates gave a short history of Grayling from the days of the first lumber camp in the community. W. F. Jennison, of Bay City, talked on "Reciprocity" and R. S. Babbitt gave his impersonation of the old Indian guide, Shoppenagon. The impersonation was called one of the high points of the banquet program.

C. T. Clark, then manager of the Dupont plants in both Bay City and Grayling, said the Grayling plant was one of the most successful of its kind not only in the United States, but in the world. The plant at that time was producing lumber by-products.

Clark said plans were in the works to triple the size of the Grayling plant and to also enlarge the Bay City facilities.

Homer H. Buck, spoke on "Reminiscences" and Rasmus Hanson, who was given credit, along with his business associates, for making Grayling what it is today, told of the splendid assistance given him and his associates in the new hotel venture.

Oscar P. Schumann, publisher of the Crawford Avalanche, came out with a special edition of the paper with pictures of the Bay Cityans taking part in the day's program.

And the Bay Cityans enjoyed their part in the 1916 program. On May 4, 1916, The Times published an acceptance by the Grayling Board of Trade of an invitation extended by the local Board of Commerce to visit Bay City.

C. J. Hathway, then secretary of the Grayling Board, drew attention to a "bread and butter" letter sent the Grayling officials on the "good time" had by the Bay Cityans.

Struck By Car Youth Hurt

John Howard Wilson, 10, son of Mr. and Mrs Jack Wilson of Grayling was described in "fair" condition in Grayling Mercy Hospital Tuesday morning after being struck by a car on Monday afternoon. His injuries were described as a fractured skull and various bruises, abrasions and cuts.

The accident occurred on the North Downriver Road about six miles east of Grayling. The youth had left the school bus and walked about a block alongside of the road with his brother, according to Sheriff Arthur Clough who investigated

When his brother called a word of warning about an approaching car, the ten-year-old whirled around on the edge of the road into the path of the oncoming car, Sheriff Clough said.

The car was driven by Russell L. Craven, 48, of Armada. He was not held following investigation of the incident. The accident was witnessed by several people who were interviewed by the Sheriff.

TB Christmas Seals On Sale

For those who did not receive 1961 Christmas Seals from the Michigan Tuberculosis Association or those who might need more, they are on sale at the office of the Crawfor County Avalanche.

The Avalanche is carrying these seals to aid the Association and those who might not receive any as a public service. All monies collected for seals is *forwarded to the association.*

NEED FOR USED TOYS URGENT

There has been almost no response to date, to the request for toys to be brought to the Grayling High School Shop Class for repair, for use in the Kiwanis Club Christmas program for needy children. The repairing of toys, *a joint* Kiwanis and GHS Shop Class project each year, provides many youngsters with gifts which they would not otherwise receive at Christmas time.

The public is urgently requested to sort out their stock of toys, with the exception of dolls which are usually unrepairable, and bring any *they can spare to the* high school, where the Shop Class will repair them. There is not too much time left, however, for this work to be done before the holidays, *so take action now!*

Wert Screens Two Films At Frederic

On Monday, November 13th, Carroll Wert presented his two films "The Frozen Forest" and "The Lady of the Waters" at the Frederic School. Both films were in color, and anyone who wonders about the history and life of the Grayling game fish should see these films. The writer has lived in Michigan all his life and learned many things about the habits and habitat of our many game birds and wild life. These films are a masterpiece of photography and patience.

They were shown to the children in the afternoon at the Frederic School, and the teachers report they were so well-liked that even the small fry kept quiet during the two hours it took to show them. Adults who didn't come in the evening will never know what *they missed.*

Hughes Wins G.O.P.; Dems Name Evans

H. B. Hughes

Hubert C. Evans

County Vote Only 10%

Approximately ten per cent of the registered voters in Crawford County bothered to go to the polls on Monday in a Primary Election to select party candidates for a General Election on December 11 for State Senator to fill the vacancy caused by the death of the late Senator Charles T. Prescott.

The vote throughout the entire 28th Senatorial District was way down. Reasons given were the deer season, the fact that people were not given sufficient time to know the candidates and apathy on the part of the voters due to the many elections called this year.

In unofficial returns from 161 out of 162 precincts in the district, Harold B. Hughes, Clare attorney handily **won the Republican nomination while Hubert C. Evans Dow Company employee of Gladwin, won the Democratic nomination over two opponents.**

The City of Grayling turned out just 93 voters while Maple Forest had 15 votes, South Branch 16, Frederic 19, Beaver Creek 21, Lovells 29 and Grayling Township 48.

In this county, the Republican vote was given to Herbert J. Smith, Jr., of Houghton Lake, who totaled 148, Hughes was given 22. The County's Democratic vote went to Martin J. Blumenthal of West Branch who garnered 18 with Evans being given 13.

Hughes, a former prosecutor of Clare County has served as Republican County Chairman as well as Tenth Congressional District GOP chairman, and a member of the State Central Committee.

The fields of his activity have included, education, government church and fraternal societies as well as politics.

In school work, Mr. Hughes taught for 12 years in Michigan before beginning the practice of law in Clare in 1945.

He is a deacon of the First Congregational Church of Clare and has for many years been active in community and public affairs. He is an avid sportsman and spends much of his spare time in the woods or on lakes and streams. He is recognized for his understanding and sympathy for problems of *sports groups and conservationists.*

He and Mrs. Hughes, a former school teacher live in Clare with their three sons, David, now in Fort Knox, Kentucky, Richard and Donald, both students in Clare *Public High School.*

Among fraternal and social interests, Mr. Hughes is a charter member and past president of the Clare Rotary Club, and is a member also of the Masonic Order and the Bay City, Michigan Consistory, the Elks Lodge and the I.O.O.F.

Evans was born and reared in Beaverton Township, Gladwin County. Graduated from the Beaverton Rural Agricultural High School and has taken correspondence courses from the University of Michigan and night courses from Central Michigan University. He worked in the construction field for two years, served with the Army's combat engineers in Africa and Europe and was parts manager for an auto dealer before joining the Dow Chemical Company in Midland where he is employed as a laboratory technician in the cellulose and plastic research department.

Hugh is married, has one son and resides in Gladwin City where he is a Gladwin City councilman. He is a member of the Michigan Municipal League and a member of the Zion Lutheran Church in Oberlin.

Evans was named as the Democratic candidate for the seat the Constitutional Convention of the 28th senatorial district at the July 25 primary.

Eagles In Action Next Tuesday

The Frederic High Eagles kickoff their 1961-62 basketball season next Tuesday, November 28 when the Varsity and reserve squad travel to Indian River to meet Inland Lakes High.

Then on Wednesday, November 29, the Frederic girls team and junior high will entertain their counterparts from Bellaire. The week will wind up on Friday, December 1st when the Varsity and reserves travel to Bellaire for a *conference fray.*

Frederic coach Murel Fisk is *looking forward to a successful* season as he has five boys who played some varsity ball last year, and four others who have had limited experience but have shown promise. Bob Barber, a senior who is suffering a broken arm at present, is expected back towards the end of the season and will give coach Fisk a player who can fill in at any of four positions.

Those who definitely will see action next week include: Ben Redman, a senior; Jim Midkiff, a senior; Gordon Armstrong, a senior; Fred Wilson, a junior; Mike Harmer, a sophomore; Alan Alma, a sophomore; John Bearss, a senior; Wilson Cox, a freshman and Ed Weaver, *a sophomore.*

Woman's Club

The Grayling Woman's Club met Monday at the clubhouse. President Mrs. Clarence Holcomb presided at the business meeting. New appointees were Mrs. Ted Stephan, Sr., in charge of the Club book, Mrs. LeRoy Millikin, Vogue sewing contest chairman.

Of special interest to the club was the news that Miss Carol Mayer, the local club's nominee and recipient of a nurses scholarship, was elected by her class at Butterworth Hospital to attend the Michigan Nurses convention held in Detroit during November. Miss Gwen Lozon of Frederic, who was sent by the local club to *Girls State in June, gave a very* interesting and informative talk on her visit.

Plans for the annual Woman's Club golden age party for those over 70 are under way. The date is December 13, from 1:30 to 4 p. m. Transportation will be furnished. Contact Mrs. Alex Bailey, phone DI 8-5149, *or* Mrs. Glen Nolan, DI 8-3680.

Special guests were Mrs. Gilford Johnson, Mrs. Don Koch, Mrs. Gerald Burns, Mrs. Marvin Miller, Miss Gwen Lozon and Mrs. Chester Lozon.

Lunch hostesses were Mrs. Ernest Norenberg, chairman, Mrs. Jack Wilkins and Mrs. Joe Hull. A horn of plenty centerpiece and tapers decorated the table.

Library Friends Plan Window Displays

Two window displays are being planned by the Friends of the Crawford County Library for the next few weeks. The two will be shown in the window of Shoemaker's store at Michigan and Cedar.

The first will be on display next week and will urge the giving of books for Christmas gifts. The second to be *displayed right after* Christmas will stress the county library's fine selection of magazines. Merchants who have the window space for such displays during the months of January, February and March were urged to contact Mrs. Eli Beery, Phone DI 8-5766. She is *in charge of the displays and is* eager to have them in various locations.

Vikings Work From Behind

"Due to several circumstances we are at least ten days behind where we should be at this time," Grayling High head basketball coach Bruce Smith said Monday.

Lost to the squad for the time being is Tom Wright, regular forward *who saw lots of action last* year. Although he is eligible he is being held out of action for disciplinary reasons. His loss hurts the Vikings chances very much.

Coach Smith has moved Chris Kroll from his regular guard slot to the forward position and is alternating with *Jim Johnson.* Sherm and Tim Neal *hold on to* their regular front line positions. Tom LaMotte and Walt Fallon are at the guard positions. Several *different combinations* are being tried out.

On Monday night, the Vikings met the Roscommon Bucks in a shakedown practice while the Viking jayvee squad traveled to Roscommon to meet the little Bucks *in another practice scrimmage.*

Another hindrance to the squad *said the mentor was the split prac*tice session where four of the squad members report for practice at 3:15 but the others do not arrive until 4:00. Coach Smith *said that he was feeling his way* along with the situation and *trying to arrive at an answer to it.*

Another worry is the fact that the Mancelona Ironmen, Grayling's first opponent on Friday, December 1st, will get a game under their belt against the Kalkaska Blue Blazers on Tuesday, November 28th.

"This will shake down Mancelona and we will have to give our very best effort and have a great deal of luck to get the season started on the right foot," Coach Smith said.

School Notes

There were thirty-eight students who received permission to go deer hunting the first day of the season. Of them Jack Harney, 10th grader, was the only one to get his buck.

Six weeks exams were held Tuesday and Wednesday.

Wednesday was dress-up day for the High School.

LUCKSTED - MADSEN WED SATURDAY

Wedding vows were exchanged by Miss Gail Eunice Lucksted and Mr. Clare Madsen, Jr., at six o'clock Saturday evening at St. Mary's Rectory, with Fr. Joseph *Sakowski performing* the ceremony before members of the immediate families. Gail is the daughter of Mr. and Mrs. Melvin J. Lucksted of Grayling, and Clare the son of Mr. and Mrs. Clare A. Madsen of Grayling.

The bride chose for her wedding a street-length dress of winter white wool with matching jacket and nutmeg accessories, with a small white hat and veil. Her flowers were white chrysanthemums and red carnations.

Miss JoAnn Trailer of Livonia was maid of honor. She wore a *turquoise dress with white accessories*, and a white carnation corsage.

Larry LaGrow was best man.

The bride's mother chose a purple wool sheath dress and black accessories, while Mrs. Madsen wore a grey faille gown, also with *black accessories.* Both wore red and white carnation corsages.

A dinner for thirty-eight guests was held at the Chief Shoppenagons Motor Hotel immediately following the ceremony, after which the newlyweds left on a three-month trip on which they plan to circle the United States. They expected to go west by the northern route, then down the west coast to the southern states, back up the east coast and then home, where they have a home on the AuSable which will be completed by spring.

Guests for the wedding and dinner came from Detroit, Centerline, Pontiac, Saginaw and Ann Arbor.

BITS O' TALK

John Johnston of Whitmore Lake, who was hunting in company with his wife opening day was one of the first if not the first to bag a buck in the Grayling area. Hunting in the region of the West side of Lake Margrethe he downed a 4-pointer at seven in the morning.

Tuesday Bridge Club was entertained by Mrs. Dale Pettengill last week. Guests were Mrs. Dick DuBois and Mrs. Ward Ellison. First prize went to Mrs. Leonard Knibbs, second to Mrs. DuBois and consolation to Mrs. Tom Welsh. The next get-to-gether will be at Mrs. Don Gothro's on the 28th.

The Connelly brothers, James, Mike, Leo, Bob, Joe and Don, all of Flint, spent last week at their cabins on the AuSable Trail south of M-72, here for the first week of deer season.

Bud Stephan was among those to get their buck on the opening day of the season. It had only one horn, with four points, so would probably have been an eight-pointer.

The Petersons and Waarlas visited them last week on Wednesday, also.

The Sandy Osbornes of Birmingham were up for the first part of deer season at their down river cottage.

Sherry Duffy was 11 years old on November 12th, but she began celebrating the night before by inviting seven girl friends to her home in the evening for a pajama party, which lasted until the small hours of the night, and then started all over again Sunday after the girls had gone to church. They danced, played games, and ate quantities of cake and ice cream and the usual party food. Each girl brought a birthday gift which was very much appreciated by their hostess.

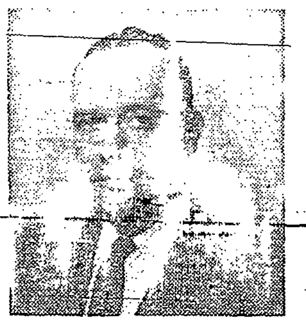
Mr. and Mrs. L. C. House of St. Louis, Mich., spent several days last week with their daughter and family, Mr. and Mrs. Bruce Carlson and children.

John Isenhauer shot a 6-point buck on Thursday, estimated at 145 lbs.



Edward A. Meany, Jr., of Grand Haven, Michigan, the earliest announced candidate for United States Senator in 1964, was in town recently to get acquainted with voters in the area.

Meany, long active in politics, is presently employed as Sales Promotion Manager of the Eagle Ottawa Leather Company in Grand Haven. He also covers the Michigan Territory. He began his political activities in Boston, Massachusetts, where he was born in 1920, by circulating nominating petitions for former Secretary of State Christian Herter, then a Congressman. In 1948 Meany entered the Primaries for a seat in the Massachusetts Legislature but withdrew active campaigning when he was accepted as a student at the Harvard Business School. Even then he came close to winning nomination.

Graduating from Harvard College in 1948 where he majored in American Political History, and the Harvard Business School in 1950, Meany moved to Michigan in 1951. He has been active in local and state politics ever since. He presently is a member of the Ottawa County Republican Party Executive Committee and regularly attends county and state conventions.

Mr. Meany served in the Infantry from 1941 to 1945 in Africa and Italy. He entered service as a Private and was discharged as a Captain. He married Elizabeth Kerns of Pittsburgh in 1943 at Camp Ritchie, Md., and they have nine daughters.

He is a conservative in both politics and business thinking. "I am firmly convinced", he says, "That this country must get away from the paralyzing effect of centralized government in Washington or suffer a complete loss of individual liberty and the right to direct one's own life".

Meany is active in Civic Life being a Vice-President of the Ottawa District Boy Scouts, President of the St. Patrick's Men's Club and other community projects.

State's 90,000 Teachers Told To Keep Abreast Of The Times

MICHIGAN'S public and private school teachers, roughly 90,000 in number, recently got a warning from Superintendent of Public Instruction Lynn M. Bartlett.

Its message was: "Keep abreast of the times in which you live."

There are three duties for teachers in order that they may fulfill their role as instructors for children and leaders of the community, Bartlett said.

* * *

Teachers must keep themselves informed in areas of rapid change, he said. This applies to current political and economic events, technological and scientific advances and social change.

Another goal for the teacher is to keep his teaching methods and subject matter abreast of the changes that are taking place. Not only must students be told of the changes, but they must also be made aware of the implications for them Bartlett said.

The third responsibilty of teachers is to help bring information about the developments, problems and needs in education to members of the community whose only contact with schools may be casual ones through their children.

* * *

Bartlett even hinted that he belives education and educators have fallen down slightly, at least in some areas.

He cited partcularly instruction in foreign languages, which are still handled with the same emphasis as years ago; and history, where teaching has in some cases failed to stay abreast of developments of various national and international feelings, and the emergence of entirly new countries.

The Public Instruction chief emphasized that teachers have a special role in Michigan society, and it is up to them to maintain it.

* * *

The Agricultural Picture in Michigan has a dark spot on it this year.

Grape production is expected to fall to about one-half the size of last year's crop. The problem involves a freeze that came along late in May, while grapes were in the critical formative stages. The vineyards never recovered.

While last year was a bumper crop compared to the 10-year average, the drop in production this year still means a blow to grape growers.

* * *

All the other eastern grape states inthe country are expected to have grape yields as large or slightly larger than last year, except for Arkansas.

Michigan's commercial grape production is centered in Van Buren, Berrien and Kalamazoo counties with Allegan and Cass counties also contributing to the market yield.

The late and relatively light grape harvest will mean a handicap for jam and jellie makers, and wine producers; and probably a price increase for the consumer.

Medical Men In Michigan face a new call to the service of their country.

The call for more doctors, dentists and veterinarians to handle the needs of the armed forces went out nationwide.

The Michigan headquarters of the Selective Service system says local draft boards will be asked to re-check the classifications and deferments of those with badly needed skills in the healing arts.

None of those called to fill the needs will be less than 28 years old, the Selective Service said.

A hitch in the service can put a hitch in the plans of someone who intends to become a doctor, dentist or veterinarian, and the resultant delay in training can be especially bothersome for physicians.

Interns are permitted to finish their training before they are called up, but specialists who are taking resident training have trouble getting deferments unless they are in public health residency programs.

The Selective Service system expects many persons who were eligible for deferments before the need became critical to be subject to a call-up under new rules.

Local Businessmen Take Action With Congressmen

Announcement of the reappointment of Robert W. Strong of the Crawford County Avalanche at Grayling, as Chairman of the Crawford County Chapter of the National Federation of Independent Business, was made today by Edward J. Salmon, District Manager of the Federation in this area.

Each business and professional man member of this organization maintains a voting membership, and is polled by ballots regularly throughout the year on bills and issues that affect independent enterprise at the national state levels.

In an effort to do everything possible to maintain the American way of life, and keep our free competitive system of business, the businessmen express their own personal opinion on the ballots each month and turn them over to Mr. Strong, who makes tabulations of the total number and the manner in which they voted.

These tabulations are sent, with the underlying signed ballots, directly to the desk of Congressman Elford A. Cederberg, at Washington, D. C., and to the newly elected State Senator. They are the only means whereby independent business and professional people can keep in continuing, organized, personal, direct contact with their national and state legislators on measures that affect, locally and nationally, free enterprise opportunities.

The National Federation of Independent Business is a non-profit organization that has the largest individual membership of any business organization in the United States and independent business and professional men of every vocation participate with voting memberships, regardless of the other civic or trade affiliations.

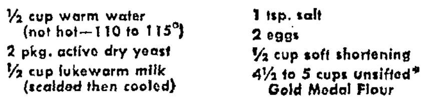
GOLD MEDAL'S BREAD BOARD BY Betty Crocker

There's a delicious expectation in the air this week that seems to me almost as good as Thanksgiving Day itself. You feel it while you're busy laying out your nicest linen and your grandest platter . . . when you're setting the extra leaf in the table and polishing up the silver . . . and most of all when you're in the kitchen planning the last detail of the most anticipated feast of the year. But—chances are, your entertaining only begins at Thanksgiving dinner! Some of the nicest holiday get-togethers take place afterwards—when the family gathers for a late breakfast or friends drop by and stay for supper.

When that happens, I've found there's absolutely nothing that makes guests feel more pampered and "prepared for" . . . or gives a quick meal more of a planned feeling . . . than bringing out a loaf of home-baked bread. And since it's a holiday—why not make it a truly glamorous show-off bread? One I especially enjoy serving is called French Coffee Lace. It's wonderful fun to bake—you feel like a French chef as you lace the strips of dough across the rich dark filling. And it's so festive and elegant, it holds the special flavor of the holiday long after the turkey has vanished into sandwiches.

French Coffee Lace



½ cup warm water (not hot—110 to 115°)
2 pkg. active dry yeast
½ cup lukewarm milk (scalded then cooled)
½ cup sugar
1 tsp. salt
2 eggs
½ cup soft shortening
4½ to 5 cups unsifted* Gold Medal Flour

To measure flour, dip nested dry measuring cups into flour, level off with straight-edged spatula and pour. Sift no more!

In mixing bowl, dissolve yeast in warm water. Add milk, sugar, salt, egg, shortening and half of flour. Mix with spoon until smooth. Add enough remaining flour to handle easily; mix with hand. Knead on lightly floured board until smooth and elastic (about 5 min.). Round up in greased bowl, bring greased side up. Cover with cloth. Let rise in warm place (85°) until double, about 1½ hr. (If kitchen is cool, place dough on a rack over a bowl of hot water and cover completely with a towel.) Punch down; let rise until almost double, about 30 min. Prepare Fruity Filling (recipe below). Divide dough in half. Roll half into a rectangle, 14 x 8". Place on greased baking sheet. Spread half of filling down center of dough covering space about 3" wide. Cut 14 strips into dough on each side of filling—2" deep and 1" apart. Start at one end and lace strips together at an angle over filling. Tuck ends underneath. Cover with cloth and let rise in warm place (85°), 30 to 45 min.

Shape second half. *Heat oven to 375° (quick mod.).* Bake *25 to 30 min.*, until rich golden brown. Frost with Confectioners' Sugar Icing (recipe below).

Fruity Filling: Mix 2 cups finely chopped apples, 1 cup raisins, ground, 1 cup brown sugar (packed), ½ tsp. salt and ½ tsp. cinnamon. Boil 1 min.; cool.

Confectioners' Sugar Icing: Mix 1 cup sifted confectioners' sugar, 1 to 2 tbsp. warm milk, water or cream (use amount for desired thickness) and ½ tsp. vanilla. Drizzle over bread while slightly warm.

Start discovering the joys of bread baking right today! Send for my new free booklet, "Yeast Breads—Plain and Fancy". Just drop a card to Betty Crocker, Box 88, Minneapolis 60, Minnesota and ask for your copy. They are all delicious breads we've developed and tested for you right here in our Betty Crocker Kitchens—and needless to say, any bread you bake is bound to be lovely when you bake it with Better-For-Bread Gold Medal, as we do here in our kitchens. Gold Medal is the high protein flour that's so uniform, so dependable you can use it cup for cup, unsifted in any recipe. Just dip, level and pour—and sift no more!

P.S. When we sit down at our Thanksgiving tables this Thursday, I'm sure we'll all feel even a little more grateful than usual for living in our part of the world and being able to enjoy each other. I'd like to extend a very warm wish to you from all of us h[illegible] H[illegible]ppy Thanksgiving!

Who's Boss? . . .

A short time ago the city council of a Michigan town of 31,000 population turned down a request of an oil company to construct two service stations. The reason given was that the city already has sufficient service stations to meet the need.

Here is a unique precedent which, if applied down the line, could produce some remarkable results. Entirely aside from the dubious legality of the council's decision, if municipal officials are to decide how many service stations a community should have, they must also be entitled to decide on the number of retail stores, insurance agencies, newspapers, doctors and so on ad infinitum.

The point is simply this: Should bureaucrats determine the extent of the goods and services available — or should business people and their customers? Putting it another way, who's boss — public servants or the public?

* * * *

True – But! . . .

Facts — incontrovertible facts — can be misleading. The National Association of Food Chains points to a current example.

The offical cost of living indices have, of late, shown rises in food prices. Typical headlines covering these statistical reports read, "Food Costs Lead Cost of Living Increase" and "Food Prices Zoom up 0.5 per cent."

This is perfectly true — but! The "but" lies in the fact that the reports don't show that U. S. food prices have declined 32 per cent relative to wages in the last 12 years.

That simply means that wage rates have moved up much faster than food prices. Thus — relative to income — food is cheaper today than ever before. According to the Association, retail food prices have increased less than 17 per cent since 1947 - 49, while wage rates have gone up 72 per cent.

The point is that dollar figures are virtually meaningless, unless they are related to changes in our incomes and our purchasing power. Judged by any such accurate yardstick, food is really a bargain today.

* * * *

Rays Of Hope . . .

A retired English physician says: "The world is in a mess . . . and I think our so-called Welfare State is largely to blame for our own senseless strikes and outbursts of stupidity, like over Polaris bases and German troops training here. Everyone is so petted and has so much done for him that initiative and responsibility seem to have vanished and it looks as if our boast of democratic freedom is excuse for license. In spite of it all there are still some signs offering hope — people trying to save wild life, others helping lonely old folk, some beauty spots being preserved, thousands buying their own houses giving them a stake in the country to safeguard. Many firms have shares for their workers and that helps to prevent friction ending in strikes. Thousands of teen-agers are going mad on good music at the proms, and hundreds are taking up sailing and horse jumping. In time, maybe these youngsters will lead opinion into a cleaner and better England."

Elizabeth Margaret Jerome, daughter of Mr. and Mrs. Benjamine Jerome, Pontiac, and Donald Karl Ballman, son of Mr. and Mrs. Frank Ernest Ballman, of Indianapolis, spoke their marriage vows Saturday at 8:30 p. m. in all Saints Episcopal Church, Pontiac. The Rev. Bates G. Burt performed the wedding ceremony using the double ring service. The bride is a graduate of Michigan State College where she became a member of Alpha Phi sorority. She also graduated from the Bishop's School in LaJolla, Calif., and attended Syracuse University. The bridegroom was graduated from University of Indianapolis and is a member of Kappa Sigma fraternity. The couple left for a honeymoon trip to New Orleans and will be at home in the Wilson Apartments in Midland upon their return in December.

Evidence that the current deer hunting season has brought the greatest turnout of hunters in history was before the state highway department this week. Commissioner Murray D. VanWagoner announced that traffic on the state-owned ferries at the Straits of Mackinac reached an all-time record of 7,504 vehicles for the first five days of the deer season ferry schedule. This compared with a previous high of 7,412 vehicles for the same period a year ago, the previous high. The boats carried more than 18,000 passengers, most of them hunters bound for Upper Peninsula shooting grounds.

Can you imagine the surprise you would get seeing a deer trotting down a Grayling street in the evening? Miss Eva Madsen experienced this surprise Monday evening when she drove along Ionia Street, near the Danish Church. She saw the animal in the road and at first thought it was a large police dog, however, she discovered it was a fawn and evidently it was lost; coaxing it to her she found it wore a red studded collar and had a small bell at its throat. Going into the Ernest Borchers home she called Ernie and George Granger, but they insisted it was a dog as they saw it trotting away. But Miss Madsen insisted and so they headed it off. At first it appeared friendly, and then when they tried to pick it up it put up a fight. They finally succeeded in getting it into Game Warden Harry Souder's garage, and Tuesday morning it was discovered that it was "Jack", the pet fawn from the McClanahan lodge on the AuSable River. Down at McClanahan Lodge Jack was missed. He sleeps on the porch at the caretaker's cabin and they noticed that he was not there, and Tuesday morning Mr. Souders called and said he would bring him out but he couldn't do anything with him. Sr. Mr. Norris from the lodge came to town and when Jack saw him and heard his voice he was perfectly willing to be taken back to his haven. This fawn, with another, had been mothered at the McClanahan place since early spring, but recently its mate was shot and killed.

Gloria MacNeven, Patricia McKenna and Jean Brady are spending the Thanksgiving vacation at Fenton, guests of Vada Ann Gordon.

Mr. and Mrs. Harvey Mattoon and children of Pontiac are expected up for the Thanksgiving holiday to visit the latter's mother, Mrs. James Perry.

Mr. and Mrs. Fred Ward of Detroit are expected home for the Thanksgiving holiday to visit the latter's parents, Mr. and Mrs. Tom Wells.

Mrs. Rose Pond of Lansing has been at the home of Mrs. M. A. Bates the past week, and while here enjoyed seeing many old friends. Mrs. Pond came to be with Mrs. Bates while members of the family attended the Ballman-Jerome wedding in Pontiac.

Scarlet fever cases that have developed in the past two weeks include: Billy Robarge, Edward Martin, Phyllis Milks, James Granger, Helen Denno, Elizabeth Smith, Louis Kraus, Maxine Clise, Arthur Clough and Mrs. Neil McDaniels.

The temperature this morning at 6 o'clock was 12 above. It looks as tho we are in for cold weather from now on. We wonder whether it is the cold weather or the scarcity of bucks in the woods that have sent so many of the hunters home, leaving very few hunters around now. One party reports that from leaving Pinconning at 2:30 p. m. Sunday and coming to Grayling at 5 p. m. he counted 412 deer on cars. That shows that quite a percentage of bucks have been taken from the woods this year. Today is slightly cloudy, with the sun peeping through occasionally.

Edwin Chalker, who attends Western State Normal College, Kalamazoo, is home for over Thanksgiving.

Frederick Moggo was home from a CCC camp in the Upper Peninsula last week, visiting his mother, Mrs. Clayton Straehly.

Mr. and Mrs. Sigurd Johnson and daughter Barbara of Saginaw spent the weekend visiting the former's parents, Mr. and Mrs. Algot Johnson.

Miss Evelyn Skingley who is taking business administration for the second year at Cleary College, Ypsilanti, arrived home Tuesday for the Thanksgiving holiday vacation.

Mr. and Mrs. Edwin John Marshall, Jr., of Toledo, who are honeymooning, following their marriage on November 8, arrived home from Havana, Cuba Monday and are at the Marshall home Pah-Won-Hee on the AuSable for for a few days.

Officials from Michigan and eight other states will convene in Lexington, Ky., December 8 to discuss further plans for streamlining the Dixie Highway, according to word received recently by W. A. Brush, president of the Automobile Club of Michigan and a director of the group sponsoring the movement in this state. Present plans call for a superhighway from Sault Ste. Marie to Miami, Fla., with a branch extending from Chattanooga, Tenn., to New Orleans, La. Groups organized in the nine states have been organized under a central association which will seek Federal aid for the project when details have been worked out. Meantime it is proposed to include the project as an integral part of each state's highway program.

46 YEARS AGO

November 25, 1915

Although three passenger coaches and two sleepers were thrown into the ditch when the M. C. R. R. southbound train was wrecked by a broken rail three miles south of Mackinaw at midnight Saturday, only five or six persons were hurt.

About 2 o'clock Monday morning while night Marshal May was returning from the south end of town and as he just got opposite the bank building he heard a rumbling noise that sounded much like an incoming freight. As he turned in scrutiny, he detected that the noise came from above, and with close observation of the heavens, he sighted a large object, sailing through the air heading in a straight northerly direction. The lights were visible, affording a spectacular view of the aircraft, which was a monster.

Mr. and Mrs. Emil Hanson and daughter Elizabeth spent the forepart of the week in Bay City.

Miss Lillie Fischer of Johannesburg is spending Thanksgiving at her home here.

Elf Rasmussen of Detroit is spending the week here, the guest of Miss Signa Eilerson.

Miss Irene LaSprance of Bay City accepted a position in the Jay Thompson and Co. dry goods and clothing store of that city and commenced her duties Monday. Miss LaSprance was formerly a clerk at the Grayling Mercantile Company store here.

Earl Madsen returned home on Monday after three years spent traveling through the different states in the west. He is visiting his parents, Mr. and Mrs. Rasmus Madsen.

Fire was discovered in the basement of the new school building Thursday night, which apparently originated from spontaneous combustion. It started in a pile of shavings and waste paint and rags. The fire was put out quickly and but little damage was done.

The marriage of Miss Alice Carriveau and Mr. Isaac LaMotte will be solemnized at St. Mary's Church Saturday morning. Rev. Fr. Riess will officiate.

Contractor George Lathers has notified the members of the school board that he will be able to turn new school over to the Board on December 15th.

From where I sit ... by Joe Marsh

Clock Watcher

Nothing in the world is more discouraging than a guest who doesn't know when to go home—especially if you have to get up as early as Chub Jackson, our local milkman.

Last week, poor Chub and his missus were entertaining a distant cousin from Center City who just wouldn't call it a night. The later it got, the more he talked, and the more unhappy Chub got.

But Chub finally found a way to shut him up. Just as his cousin started another long tale with, "And that reminds me of the time . . . ," Chub jumped right up and said, "Gosh, you're right! It is getting late!"

From where I sit people who have respect and consideration for other folks' feelings never outstay their welcome. One of my neighbors, for example, prefers other beverages to beer, yet when he drops over he never objects if I have a glass of beer while he enjoys his coffee. It's thoughtfulness like this that keeps friendships from "tiring out."

Secret Pal's names were exchanged for the year and plans were made to fill a basket for a needy family for Christmas, also for the Christmas party to be held in December at Mrs. Elder Swanson's home. The remainder of the evening was spent in a continuation of the Christmas workshop of last month. Mrs. Robert Golnick, Mrs. Earl Whaley and Mrs. LeRoy Christian were welcomed as new members at this meeting. Mrs. Don Akers resigned from the group because of moving to Manton. She has been instrumental in forming the first Extension group in Manton, which had none before now.

More Business In County

(Special to the Avalanche)

NEW YORK, Oct. 23 — Crawford County supports a larger number of business establishments, in proportion to its size, than do most counties in the United States.

This is disclosed in Government figures, released recently by the Department of Commerce and by the Department of Haalth, Education and Welfare.

They show that there are 23 business firms in Crawford County for every 1,000 residents.

The ratio is high. It compares favorably with the average in the rest of the United States, 18 firms per 1,000 people, and with that in the East North Central States, also 18.

The figures in the survey, which bears the name "County Business Patterns," were based on tax reports for 1959, submitted by employers under the Old Age and Survivors Insurance program.

It shows a total of 115 non-farm businesses — small, medium and large — in Crawford County. Of these, 82 have from one to three employees each, 15 have from four to seven in their employ, and 14 have from eight to nineteen.

Small business is well rooted in the county, the breakdown shows, yet there is no dearth of larger-size firms.

Some 97 per cent of the total have fewer than 20 employees each.

It is a greater proportion than is found in most parts of the United States, where only 91 per cent are in that category. In the East North Central States, there are also 91 per cent.

Crawford County's business firms provides jobs for 798 people in "covered" employment, according to the report. By "covered" is meant employment within the scope of the social security program.

The American spirit of individual enterprise and the willingness of people to take business gambles are still with us in big measure. Evidence of that is the number of new ventures that are started each year.

Their success is far from guarateed. The mortality among these newcomers, especially in the first five years, is high. Yet enough of them do succeed to make the risk seem worthwhile to many people.

Last year, according to the Government's figures, there were 440,000 new businesses established in the United States.

Between The Bookends

"Mila 18" — by Leon Uris.

For the first time in nearly two thousand years a Jewish army controlled Jewish land. The "nation" was only a few square blocks and its capitol a house at Mila 18 St., in the middle of the Warsaw Ghetto.

The Jewish leaders had a problem. Would they obey the German orders to save their children or heroically resist. It was the Nazis themselves who solved the dilemma, "total elemination."

Headquarters were set up at Mila 18 where brave men and women put up a suicidal fight that lighted a flame of hope.

Mila 18 is rich in its vivid characters, Von Epps the civilized and corrupt Nazi official, Gabrulla a Catholic who is loved but cannot marry. A journalist whose love for another man's wife leads him into the Ghetto.

The hero of Mila 18 however is the Jewish people and it is a proud moment in the history of the Jews and Leon Uris has brought it to life with all of the conviction and drama of Exodus.

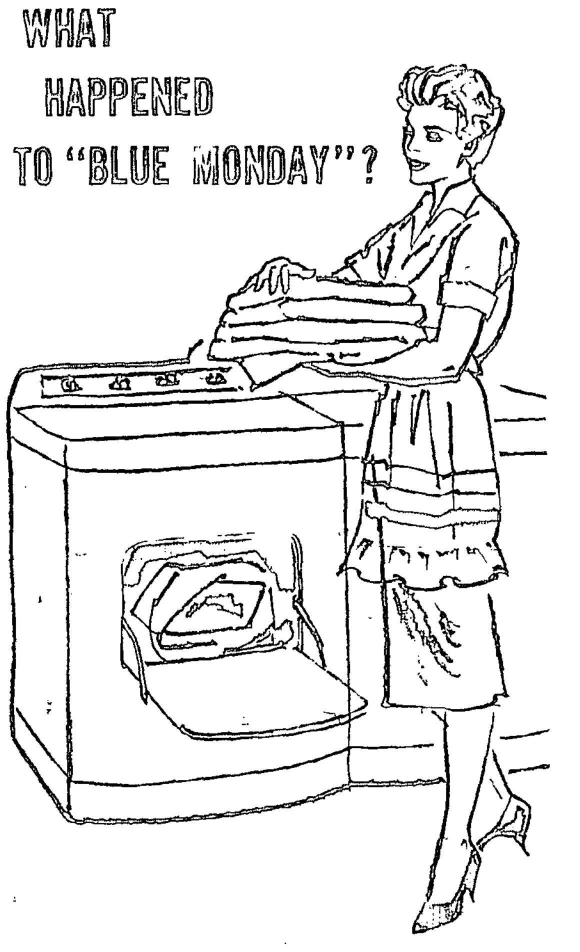
WHAT HAPPENED TO "BLUE MONDAY"?



Monday used to be set aside as "washday." But now many women treat Monday just like *any* day. With electric washers, dryers and irons, it's so easy to spread out the laundry job—do a few things in the spare minutes *any* weekday.

Electricity is your silent servant. It helps with the washing, cleaning and cooking. And offers entertainment, too.

Just think a moment of the many jobs it does in your own home, at such low wages. Only dimes a day! Then you'll agree that it's just about your best bargain today!

School Board Minutes

Minutes of Grayling Public Schools Board of Education, held October 9th, 1961.

Regular meeting of the trustees of Grayling School District No. 1 was called to order at 8:00 p. m. in Alumni Room by President B. E. Henig.

Present: Trustees Jerome Kesseler, Eva Strong, Dr. B. E. Henig, James Baker and Bill Joseph, and Supt. Joseph Stripe, Mr. and Mrs. George Allen, Wesley LaGrow, Howard Hatfield, Gary Parkinson and Leland Marshall. Absent: Trustees LeRoy Millikin and Melvin Nielson.

The minutes of the last regular meeting held on Sept. 11, 1961, were read, corrected and approved.

The treasurer and superintendent reported on the financial condition of the district. As of Sept. 30, the General Fund balance amounted to $27,062.86, and the Debt Retirement Fund balance, including investments was $69,169.56.

Bids for complete installation of stairwell enclosures, in accordance with architectural specifications, and in compliance with recent ruling from the State Fire Marshal, were opened, and read as follows:

A. W. Scharffe & Son, Saginaw, Michigan — $15,000.00.

Leland Marshall, Grayling, Michigan — $10,743.75.

The bids were discussed and on motion by Baker, supported by Kesseler, and unanimously approved, a Special Meeting was called for 8:00 p. m. on Oct. 16, 1961, to enable all board members to further consider them.

Mr. Stripe reported that new ceiling and lighting fixtures are being installed in the Activity Room to be now used for one Kindergarten section, and also that he had called on the Kalkaska County Treasurer in regard to tax monies owed our district.

Discussion was held on publishing the minutes of school board meetings in the Crawford County Avalanche. Moved by Baker, supported by Joseph, that minutes of all meetings be published for the balance of the school year 1961-62. Motion carried.

President Henig informed those present that he had contacted suppliers for furnishing dividing partitions and a public address system for the gym, and also requested the superintendent to mail agendas of meetings to each board member two to three days before each meeting.

The inter-scholastic athletic program for seventh and eighth grade boys was discussed at great length, and Mr. Stripe stated that a full intramural program would be set up and in operation at the end of football season. Mr. Allen protested the board's recent action in dropping these inter-scholastic activities, and President Henig explained to those present why this was done. The transportation of students, late hours, and other factors were some of the reasons given, and the trustees believed it more important to have more students join in a good intramural program, by increasing their participation in more sports.

In the meantime, plans are under way to improve and expand the intramural basketball program in grades 5 through 8. Mr. Dean, who is in charge of the program, is busy organizing the grades into teams and setting up tentative practice and game times.

Quite a number of local men have volunteered their help in managing a team and more men will be contacted as soon as plans are complete.

It is hoped that through the united effort of the school and community, we will have a great deal more participation in basketball by boys below the 9th grade.

Many other minor items were discussed, and there being no further business to come before the board, the meeting was adjourned at 10:00 p. m.

ADKA REPORTS N CON-CON

The Convention acted on two major issues last week. A reso-

Crawford County Avalanche
Thursday, November 23, 1961

lution was passed regulating lobbyists requiring that they register with the Convention and file expenses incurred in their activities.

The November 9 session was a long debate on the resolution which required that delegate proposals for the Constitution be cut off on November 22. The resolution was amended ,and after nearly three hours debate, established the cutoff date for delegate proposals as December 1. The minority argument was that this resolution would "gag" delegates too soon and the majority of the delegates argued that delegates could easily present any "brainstorms" to the committee or on the floor as an amendment and this was the beginning of establishing some sort of time table. Although no further time table has been established, suggestions have been made that the public hearings be completed by January 1, and that committee sessions be completed by the end of January. I would say it is all important that we get at the debate on the substance of the Constitution on the floor of the Convention as soon as possible. I say this in the hope that time-consuming debate on trivials might cease and that the valuable time will be used for the expected lengthy debates on the important substantive issues of the Constitution, such as reapportionment and local government.

The holiday schedule was adopted. The November 22, 1961, session will be at 10:30 a. m. and when it adjourns it will stand adjourned until Monday, November 27; and when the Convention adjourns on Thursday, 21, December 21, 1961, it stands adjourned until Wednesday, January 3, 1962.

Inquiries relative to convention tours by high school groups and others should be addressed to: Mr. Ink White, Chairman, Public Information Committee, Constitution Hall, Lansing, Michigan.

Convention mail can be addressed to any delegate at Constitution Hall, Lansing, Michigan. The Constitution Hall switchboard number is IVanhoe 4-8761.

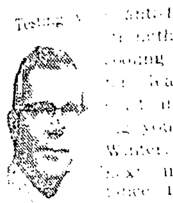
WHY COLD WEATHER MAKES CARS HARD TO START



C. Welsh

Testing [illegible] anti-freeze for [illegible] and your cooling system [illegible] brakes is a [illegible] in preparing your car for Winter. But right next in importance is an ignition tune-up if you want to avoid waiting for the tow truck some morning not long from now.

Low temperature has two effects on automobile ignition: it reduces the energy output of the battery - the spark that kicks the motor into action - down to 40% of its peak output, and it stiffens engine oil so that as much as 2½ times normal electrical power is required to move the engine.

These reductions are reached at zero temperature, which is more often than you think in a car left [illegible] overnight in a Winter wind. Peak efficiency for starting occurs at 80 degrees. For the battery, this drops to 65% of efficiency at 32 degrees. Engine inertia increases [illegible] at 32 degrees.

It is easy to see why, with the engine being 2½ times as hard to move, and the battery losing 60% of its power to move it, that cars are hard to start on cold Winter mornings.

Our service mechanics will check your battery for its charge rating and clean and tighten terminals. A minor tune-up will [illegible] after your plugs and points so that more of the battery's power will go to move the engine. Now is the time to use the new light multiple grade oils. The few cents additional in cost will pay for a lot of [illegible].

LOCAL CUB SCOUTS HAVE 61 ENROLLED

Claude Halstead has agreed to become Packmaster for the Cub Scouts for this year. Norman Johnson, who held the office last year, will be the Assistant Packmaster. Edwin Funck is Secretary of the Cub Scouts and Dick DuBois the Treasurer. Members of the Cub Scout Committee are Howard Day, Chairman, Johannes Peterson, Ernest Larson, and Rev. Alfred Fennell.

Sixty-one boys have enrolled for Cub Scouting, and a charter has been applied for which should be here for the next meeting, November 24th, to present to the group. Pack meetings will be held on the last Friday of each month, starting at 7 o'clock in the Michelson Memorial church basement. It is hoped that parents, especially fathers, will attend each meeting.

Den Mothers who have agreed to serve this year are: Mrs. Floyd SanCartier, Mrs. Norman Johnson, Mrs. Clarence LaMotte, Mrs. Howard Morse, Mrs. Clayton Hildebrant, Mrs. Harold Dykema and Mrs. Edward Sorenson.

There are seventy-five boys who have completed the Cub Scout training and are ready for the Boy Scouts, but so far no one has been found who will agree to take on the position of Scoutmaster. A Scout Troop will be organized if leaders for the organization will volunteer.

Bishop's Thanksgiving Clothing Collection On

The 13th annual Catholic Bishop's Thanksgiving Clothing Collection swung into action in the Grand Rapids diocese Monday, with parishes in this section joining others throughout the 29-county area in donating useable clothing to the needy overseas.

The clothing is being accepted at individual parish depots for sorting, packing and shipment to a central warehouse in Grand Rapids. Eventually, the clothing will be forwarded to Catholic Relief Services-National Catholic Welfare Conference in New York City for distribution to the needy abroad.

Last year the proceeds of the Bishops' Clothing drive went to the needy in 64 countries regardless of race, creed or color.

A 1961 goal of 160,000 pounds of wearable clothes, shoes, blankets and bedding has been set for the Grand Rapids diocese, 30,000 pounds more than obtained in last year's record-breaking campaign.

Although the week-long drive is scheduled to end next Sunday, pastors generally keep their depots in operation for an additional week to receive late donations of clothing.

MICHIGAN IS LIVABILITY

"Michigan's rich advantages for year-around recreation make our State a wonderful vacation spot for visitors," Robert J. Furlong, director of the Michigan State Tourist Council, points out.

"The great opportunities for recreation and enjoyment that Michigan possesses provide the opportunity for our great tourist business. But, to Michigan residents, they help to make our State a place for pleasant living.

"Not only are our facilities for recreation an industry in themselves, but they can serve as an inducement for our present industry to expand here and to encourage new industry to locate here.

"Our facilities for pleasant living include outstanding educational systems, cultural advantages, excellent public service and year-around recreation. The industrialist and his employees who enjoy hunting, fishing, water and winter sports, professional, intercollegiate and other amateur sports, camping in parks and recreational areas will find in Michigan what they desire.

"All of our people can perform great service to their communities and be active in the campaign to strengthen Michigan's economic base. They can encourage their friends from other States to vacation in Michigan. They can be alert to industrial prospects among vacationers. They can assist industrial development by letting the whole nation know that Michigan is ideal for recreation, for relaxation and that it is truly a State of pleasant living."

EIGHTY-FOUR AREAS

Michigan Ski Centers At All-Time High, Tops In The United States

Michigan is making a determined bid to capture the title: "Ski Capital of the Nation."

Ten new ski centers have been added to the state's roster of winter offerings' bringing Michigan's total to 84 winter sports centers—more than any other state in the nation, according to the Michigan tourist council.

The council also reports that many of the 74 previously established winter resorts are improving and expanding their facilities for the 1961-62 season.

Dotting the Michigan map from the far reaches of the upper peninsula to the fringes of metropoliton Detroit, the 84 areas will offer ski slopes for beginners as well as experts and intermediate skiers.

Pre-season estimates by the state tourist council indicate some 180,000 skiers will make an average of three trips each to Michigan's ski centers during the coming winter season. And they are expected to spend more than $18 million on the sport, not including equipment purchases, according to the most recent ski industry studies.

A new statewide winter vacation map-guide pinpointing locations and describing facilities of all of Michigan's winter sports centers will be available after November 10 from the state tourist council. Free copies can be obtained by writing to: Ski Map, Michigan Tourist Council, Lansing 26.

In addition to downhill skiing, Michigan's winter scene also features cross-country trails, slalom bowls, toboggan runs, skating rinks, ice fishing, ice boating and hunting.

To assure a longer ski season and more reliable snow conditions, 19 ski centers will have snow-making equipment in operation this year. And night skiing will be offered by 35 areas.

Indoor facilities at Michigan's winter sports centers include lodge dormitory and motel accommodations, restaurants, snack bars and lounges. Skis, boots and poles can be rented at most of the areas, and several centers offer special "ski week and weekend" package vacations at attractive rates that include lodging, meals, equipment and instruction.

The new 10 ski centers— opening their first full season of operation this year — include one in the upper peninsula, six in the western lower peninsula, and three in the eastern half of the lower peninsula.

The U. P. now has 16 ski centers with the addition of Thunder Bowl, northwest of Manistique in Hiawatha National Forest. This area has six ski slopes, tobogganing and skating, and a chalet with snack bar.

In the lower peninsula, new areas and their announced facilities include:

Pleasant Valley, southwest of East Jordan; two ski slopes, night skiing, skating and a warming shelter with a snack bar.

Bear Hills, at Bear Lake, north of Manistee ;seven ski slopes, tobogganing, skating and sleigh rides, night skiing, and a warming shelter wth a snack bar.

McGuire's Ski Resort, south of Cadillac; two slopes, night skiing, skating and tobogganing, a lounge, warming shelter and snack bar, with lodging and meals on the premises.

Grand Haven Ski Bowl, at Grand Haven; five ski runs, night skiing, and a warming shelter with snacks

Eskar Hills at Middleville, four slopes, snow making equipment, and a warming house with snack bar.

Little Switzerland, west of Three Rivers; 10 ski slopes, toboggan runs, night skiing, and a warming shelter with dining facilities.

Apple Mountain, northwest of Saginaw; a main slope with three tows, night skiing, snow-making equipment, and a warming house with snack bar.

Lee-Tow Winter Sports Park, near Caro, two slopes and tows, tobogganing, warming and snack facilities.

Mount Brighton, just west of Brighton; six ski runs and beginers area, seven tows, snowmaking machine; night skiing, skating; and a two story lodge with eating facilities.

Besides the new ski areas, Michigan winter visitors will find many improvements at existing resorts. Major changes in facilities for the 1961-62 season include:

Indianhead Mountain (near Ironwood) — a new double chair lift, snow-making equipment, and an automatic ski-waxing machine.

Pine Mountain (at Iron Mountain) — new snow-making equipment.
